Better Not Get Dyspepsia

If you can help it. Kodol prevents Dyspepsia, by effectually helping Nature to Relieve Indigestion. But don't trifle with Indigestion.

A great many people who have trifled with indigestion, have been sorry for it—when nervous or chronic dyspepsia resulted, and they have not been able to cure it. Use Kodol and prevent having Dyspepsia.

Everyone is subject to indigestion. Stomach derangement follows stomach abuse, just as naturally and just as surely as a sound and healthy stomach results upon the taking of Kodol.

When you experience sourness of stomach, belching of gas and nauseating fluid, bloated sensation, gnawing pain in the pit of the stomach, heart burn (so-called), diarrhoea, headaches, dullness or chronic tired feeling—you need Kodol. And then the quicker you take Kodol—the better. Eat what you want, let Kodol digest it.

Ordinary pepsin "dyspepsia tablets," physics, etc., are not likely to be of much benefit to you. In digestive ailments. Pepsin is only

a partial digester—and physics are not digesters at all. Kodol is a perfect digester. If you could see Kodol digesting every particle of food, of all kinds, in the glass test-tubes in our laboratories, you would know this just as well as we do.

Nature and Kodol will always cure a sick stomach—but in order to be cured, the stomach must rest. That is what Kodol does—rests the stomach, while the stomach gets well. Just as simple as A, B, C.

Night Riders Send Threatening Letters to Hopkins Co Growers.

The Madisonville Journal says: "In the absence of a joke column in the pages of the Journal it is necessary to place the following intelligent missive under a foreign caption. It is printed to show on what a low plane some one places Kentucky manhood, even more for that reason than to fill space.

This brilliant bit of intelligence was addressed from Princeton, Ky., but mailed on an L. & N. train. Here is the ludicrous epistle:

Camp of Night Riders, Princeton, Ky.—We want this distinctively understood, that every man that lays out of the Association in Hopkins county may depend on getting his back skinned and fire stuck to his barn. We want to say to any man that intends to buy tobacco in Hopkins county that we have got plenty of hemp rope and bullets and you can depend on having it used on you. Hopkins county has been a seab and sealawag county long enough and if the farmers there won't work for their own interest, we will, and when we do come we intend to scatter seab hair. Willson's soldiers went fast as long as a snow ball in August. We mean every word. "Night Riders 800 Strong"

Itch! Itch! Itch!

Scratch! Scratch! Scratch! Eczema is maddening and the more you scratch the more you itch. Your skin is on fire—your lips and mouth are dry with the agony of it—your whole body is worn out with the constant suffering—stop scratching—you can't put out the fire with your finger nails. Little's Liquid Sulphur stops itching instantly and because of its wonderful penetrating qualities comes in direct contact with and kills the germ that causes the disease. It quickly relieves any skin disease on earth—Eczema, Psoriasis, Herpes, Tetter, Shingles, Acne, Ringworm, Barber's Itch, Itch, Poison Oak, Ivy Poison, Erysipelas—all diseases of the skin or scalp whether caused by heredity, contagion, weather, chafing or impure blood.

It is well known what a perfect antiseptic and germicide sulphur is—all city health departments fumigate houses where contagious disease has been, with sulphur. Little's Liquid Sulphur is a secret preparation holding the sulphur in solution so that it gets right into the pores, enters the blood and goes direct to the seat of the irritation or disease. Look for the trade-mark—picture of a red devil. Sample bottle sent post paid to any address for J.C. Rhame-Sulphur Co., St. Louis, Mo.

Night In Waterless Camp.

Naivesha British East Africa, July 14.—The members of the Roosevelt party are active in their search for game in the vicinity of Lake Navaasha. Monday and Tuesday of this week the party were on the march from dawn until after nightfall. At the end of the first day the pool that had been the objective point was found to have dried up and the party consequently had to spend the night in a waterless camp.

Three Brothers Run a Train.

What is probably the most remark-

able train crew in the United States is that of the Chicago express over the Philadelphia and Reading and Lehigh Valley railroads. The conductor of the train is H. M. Saltman, both the engineer and fireman are his brothers. If there is another case where three brothers so pose the major portion of a train crew it is not on record. The conductor is the oldest of thirteen children, twelve of whom are living. He climbed to his present post via the brakeman route, while his brothers choose the locomotive end.—Cadiz Record.

He Forgot The Printer.

They counted him an honest man!

Through Summer, Fall and Winter.

He paid the butcher every week—

But he clean forgot the printer

He settled with the bank each month;

The balance made him exasper,

But he owed at least two years or more

For the little village paper.

He went to church and Sunday-school,

To Thursday night prayer meeting

For each "reform" that came his way

He had a hearty greeting.

For every "high" and "holy" cause

You'd always find him praying,

And he took the paper "to help it along,"

But he never thought of paying.

He had a "pull" in politics,

The candidates all sought him,

But when he did n'er balance up

With the revenue it brought him.

And so, from year to year, this

This scupfulcher all whited

Went on his way dispensing grace

To sinful man benighted.

And when at last Time's ruthless

seythe

Cut down the withered weed,

His heirs prepared a fairy tale

For witless man to read,

His soul released from earthly bonds

New rests where there's no winter,

And they know above, or down below,

That he never paid the printer.
